

IF YOU EARN LESS THAN R15 000 A MONTH, THIS COULD WORK FOR YOU

What the new duplexes in Protea Glen will look like when they're finished.

BETTER HOUSES SOON

PROTEA Glen will see the start of a new multi-million-rand development soon! The R50 million project – funded by the National Housing Finance Corporation and International Housing Solutions – will have 176 sectional title two-storey flats available for rent for around R3 200 – which in-

cludes parking.

About 100 of the 176 units have already been built and some are rented already!

The other 76 units will be finished next month. It is hoped new tenants can move in during April.

Yankho Chitsime, who is responsible for the deal from International Housing Solutions' Development Team,

said the Protea Glen development would provide affordable rental opportunities to people earning less than R15 000 a month.

He said the development is managed by Trafalgar Property. They handle the letting on close to 50 000 units.

Soula Proxenos, managing partner of International Housing Solutions, said:

“Protea Glen’s duplex units are part of the IHS answer to providing affordable houses in Soweto.”

He also said people were used to finding cost-effective housing in inner city Joburg.

Units in the new duplex development are from 46 square metres with two bedrooms to 60 square metres

with three bedrooms.

All units will have floor tiles and carpets as well as built-in kitchens and stoves.

Rentals average R3 200 which includes security, parking and refuse collection.

Rentals are through Trafalgar Property Management. You can call them on 011 214 5200 or 011 642 0166
